RENEWED PETITION UNDER 37 CFR 1.181

Dear Sir:

This paper is in response to the Decision on Petition to Withdraw the Holding of Abandonment dated September 9, 2005. In response to a Notice of Abandonment dated May 24, 2005, Applicant submitted a Petition to Withdraw the Holding of Abandonment on June 8, 2005, requesting the holding of abandonment to be withdrawn. The Petition to Withdraw the Holding of Abandonment was based upon the failure to receive the Office Action letter dated November 1, 2004. The nonreceipt of such Office Action resulted in the failure to reply within the response deadline of the Office Action.

The Decision on Petition to Withdraw the Holding of Abandonment, dated September 9, 2005, acknowledged the receipt of the practitioner's statement stating that the Office communication was not received by the practitioner and the statement attesting to the fact that a search of the file jacket and docket records indicated that the Office communication was not received. However, the Decision requested a complete docket record with a copy of the list of all responses in the practitioner's office with the due date at and around December 01, 2004, pursuant to MPEP §711.03(c)(II).

In response to this requirement, Applicant has attached a docket record of all matters from the practitioner's office with a due date between November 15, 2004 and December 15, 2004 sorted by due date.

Applicant submits that, as illustrated by the copy of the docket record, the Office Action mailed November 1, 2004 would have been docketed with a reply due date of one month from the date the Office Action was mailed, namely December 1, 2004. Had the Office Action for the above referenced application been received, it would have been recorded and docketed with a due date of December 1, 2004, or at least within this four week window. For example, matter number 1512.2.121 shows an Office Action response due date of December 2, 2004. The present matter (matter number 2566.2.42), had the Office Action been received, would have appeared in this docket record. The Office Action mailed November 1, 2004 for the above referenced application was not docketed with a reply due date of December 1, 2004 because it was not received by practitioner.

Based on the previous statement of nonreceipt and the attached copies of the file jacket and the newly submitted docket record, Applicant respectfully requests the holding of abandonment be withdrawn and the Office Action mailed on November 1, 2004 be remailed to the undersigned so a timely reply may be prepared and filed.

Respectfully submitted,

Evan R. Witt

CHIPS FOR USE ON EXISTING ROADS
AND A PAVING METHOD USING THE SAME :

:
:
: DECISION ON PETITION
: TO WITHDRAW THE
: HOLDING OF ABANDONMENT
:
:
:

This is a decision on applicant's petition to withdraw the holding of abandonment, filed in the United States Patent and Trademark Office (USPTO), on June 10, 2005.

The petition is **DISMISSED**.

A review of the file record reveals that the application became abandoned for failure to respond to the Office action (Restriction requirement) mailed to applicant on November 01, 2004, setting a one-month extendable response period. A Notice of Abandonment was mailed on May 24, 2005 stating that no reply had been received. Applicant contends that the November 01, 2004 Office action was not received.

There is a strong presumption that Office communications properly addressed and delivered to the United States Postal Services, are in fact delivered to the addressee. An allegation that the Office communication was not received must be overcome by a showing that it was not received.

The showing required to establish non-receipt of an Office communication must include all of the following requirements:

- (1) A statement from the practitioner stating the Office communication was not received by the practitioner;
- (2) A statement attesting to the fact that a search of the file jacket and docket records indicates that the Office communication was not received; and
- (3) A copy of the docket record where the non-received Office communication would have been entered had it been received and docketed must be attached to and referenced in practitioner's statement.

The docket records indicated above must include a copy of the list of all responses in the practitioner's office with the due date at and around December 01, 2004. See Notice entitled "Withdrawing the Holding of Abandonment When Office Actions Are Not Received," 1156 OG 53 (November 16, 1993).

Applicant's petition indicates that after careful review of the file and docket records the November 01, 2004 Office action was never received. In support thereof applicant has provided a copy of "the docket record". The evidence provided is not considered a docket record but rather a log of incoming U.S.P.T.O. mail.

The petitioner has failed to comply with requirement (3) indicated above. Applicant has only set forth that the Office action mailed November 01, 2004 was not received or placed in the file for application 10/804,893. A complete docket record with a copy of the list of all responses in the practitioner's office with the due date at and around December 01, 2004 is required as a shortened statutory response period of one-month (not three-months) was set in the Office action mailed November 01, 2004.

Petitioner's evidence of non-receipt of the Office action mailed November 01, 2004 is insufficient to withdraw the holding of abandonment, and the petition is **DISMISSED**.

Any request for reconsideration of this decision must be submitted within **TWO (2) MONTHS** from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Renewed Petition Under 37 CFR 1.181."

Correspondence with respect to a Petition to Withdraw the Holding of Abandonment under *Delgar Inc. v. Schuyler* should be mailed to the Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.
